

New Choices Recovery Center sponsors a comprehensive array of programs and services for individuals and families challenged by substance abuse and mental health disorders. Though we're located in downtown Schenectady, we are a primary provider of services to residents of New York's Capital Region and surrounding areas. Our programs include community residential, permanent supportive housing, full day rehabilitation and outpatient clinic treatment, prevention education, wraparound aftercare, impaired drivers program, and mobile outreach and telehealth services.

We touch the lives of over 10,000 people each year.
